Eyes Examined

There is no calling where accuracy and skill are more in demand than that of the optician. One familiar with the construction of the eye knows that there are many eye-defects which can not be accurately estimated or corrected by the use of test letters and cards alone.

For this reason we use, in our eye examinations, the several different methods that long experience has taught us bring best results.

WEEK'S REVIEW OF SHIPPING

Last week's absence of mail steamers at this port, was more than made up by the rush of those vessels during the week just closed. No less than six big ocean liners, aggregating 28,022 tons, arrived and departed from and for ports in the United States, Canada, Australasia and the Orient. During this period the arrivals of sailing vessels were very light. An unusual feature of the week's movements of steamers was that out of the six calling at this port four were British vessels, a condition not often found here. The arrivals of freight by steamer during the seven day period were very small as were the shipments, but the passenger lists of all the steamers, both through and local, showed a marked increase.

The arrivals may be classed (omitting island schooners) as follows: Mail steamers, six; freight steamers, none; deep water sailing vessels, two; island steamers, thirteen; total, twenty-one. The following are the details of the week's arrivals: From the Colonies—22, Sierra, mail, passengers, general freight. From the Orient—22, Coptic, mail, passengers. From San Francisco—24, Ventura, mail, passengers, general freight; 24, Doric, mail, stop-over passengers. From Victoria and Vancouver—26, Miowera, mail, passengers, general freight. Sailing vessels: From San Francisco—24, schooner Carrie and Annie, missionary supplies for Ponape; From Eureka (Humboldt Bay)—25, barkentine Amelia, lumber.

The following vessels departed during the week: Steamers: For San Francisco—23, Coptic, stop-over passengers; 23, Sierra, mail, passengers, freight. For the Colonies—24, Ventura, mail, passengers, general freight; 27, Miowera, mail, passengers, general freight. For the Orient—26, Doric, mail, passengers, general freight. For Victoria and Vancouver—24, Manuka, mail, passengers, general freight. For Kahului and Hilo—21, Hawaiian, to load sugar. Sailing vessels: For San Francisco—24, ship Fort George, sugar; 26, bark George Curtis, sugar. For Astoria—25, bark Pierre Loti, in ballast for orders. For Knapton, Wash.—27, barkentine Echo, in ballast to load lumber. The total departures for the week are as follows: Mail steamers, six; freight steamers, one; deep water sailing vessels, four; island steamers, nine.

The vessels in port number eighteen, exclusive of tugs, small island schooners and vessels laid up in Naval Row. They are classed as follows: Eight deep water sailing vessels, nine island steamers and one government station vessel. Since the sailing of the barkentine Echo the railway coal wharf has been deserted but with the arrival of the Hawaiian today or tomorrow and the Coronado going alongside to load sugar there will be something doing when the week's work begins. At the Railway Wharf No. 2 the four-masted ship Hawaiian Isles is still discharging her cargo of coal from Newcastle. The bark Kaialani has finished painting and is awaiting cargo. The four-masted schooner Helene is washing down preparatory to receiving her cargo of sugar for the Coast. The barkentine Coronado completes the quartette of vessels at this wharf. She has a part cargo of sugar aboard and yesterday took on 216 bags from the steamer J. A. Cummins. She will take on 3000 more at the railway coal wharf tomorrow and sail Tuesday noon for San Francisco.

At the Inter-Island wharf the steamers James Makee, Ke Au Hou and Nihau are laid up and the Noeau and Kauai are loading. They will sail tomorrow. At Sorenson's wharf is the missionary schooner Carrie and Annie which is stopping here on her voyage from San Francisco to Ponape in the Micronesian Islands with missionary supplies. She will sail within a few days. The island schooners Ka Moi and Charles Levi Woodbury are at this wharf loading. The barkentine Amelia is at the lumber yard wharf unloading a big cargo of lumber from Eureka. At the Oceanic wharf is the steamer J. A. Cummins loading for Waimanalo and all Koolau ports. At the Wilder docks are the steamers Kinau, Claudine and Likelike loading for various island ports. The French bark Cambonne is at Naval Dock No. 1 where she will commence discharging coal for the government tomorrow. The U. S. S. Iroquois is at Naval Dock No. 2 and the barkentine Wrestler is on the Marine Railway, being cleaned.

Korea Has Sailed.

A cablegram received by the local agents of the Pacific Mail line, H. Hackfeld & Co., states that the liner Korea sailed yesterday from Yokohama for San Francisco via this port with 900 tons of Honolulu freight and room for 110 passengers from this place. She should arrive here at daybreak on the 5th of September sailing probably on the evening of the same day. She has done well in making up the ten days she was behind time when she passed through on her westward trip and will arrive in San Francisco only about two days late.

Miowera for Colonies.

The Canadian-Australian liner Miowera got away for Brisbane and Sydney via Suva yesterday morning at about nine o'clock. She took on 250 tons of coal at this port. The steamer has about 1750 tons of freight for the Colonies. The C.-A. company is arranging a new schedule which will allow stops at Fanning Island on certain trips. This is caused by the discontinuance of

the Fanning service of the Oceanic company.

The Sugar List.

Admiral Beckley reports the following sugar ready for shipment on Hawaii: Olan, 1800; Waiakae, 9600; Hawaii Mill, 100; Waiakae, none; Onomea, 25,000; Pepeekeo, 6349; Honoum, none; Hakalau, none; Laupahoehoe, none; Oolaka, none; Kukalau, 4000; Hamakua, none; Paauhau, 3000; Honokaa, 2300; Kukuihaele, none; Punaluu, 5300; Honuapo, none.

The Mails.

Mails are due from the following points as follows: San Francisco—Per Alameda, Sept. 2. Yokohama—Per Korea, Sept. 3. Sydney—Per Sonoma, Sept. 13. Victoria—Per Manuka, Sept. 24. Mails will depart as follows: San Francisco—Per Korea, Sept. 3. Sydney—Per Sierra, Sept. 14. Yokohama—Per Coptic, Sept. 17. Victoria—Per Aorangi, Sept. 21.

Shipping Notes.

The steamer Nevada sailed the 25th from San Francisco for this port via Seattle and Tacoma.

The Carrie and Annie did not get away yesterday but will probably sail within a day or two.

The French bark Cambonne will commence discharging her coal at Naval Dock No. 1 tomorrow morning.

The bark W. B. Flint sailed from Makaweli Friday with a part cargo consisting of 600 tons of sugar for San Francisco.

The ship Tillie E. Starbuck arrived safely at Hilo the 20th but her agents were not notified until late last week. This accounts for her "long voyage."

The Likelike was still late on this trip. She arrived at three yesterday afternoon with several passengers and considerable cargo including poultry and hogs.

The steamer Kinau arrived from Hilo and way ports yesterday at ten o'clock with a heavy list of passengers. She will take the Republican delegates on the return trip.

Some anxiety is felt on the Coast for the safety of the revenue cutter Thetis which sailed from this port for Dutch Harbor in Alaska on July 5th and has not been heard from since. As there is no telegraph at Dutch Harbor it is likely that the ship is safe.

The American-Hawaiian Steamship Company will equip its liners Arizona and Alaskan with oil-burning machinery and will probably convert all its vessels into this type of steamer in the near future. This decision is the result of the success of the experiment on the Nebraskan.

GOVERNOR CARTER AND MR. CARPENTER

Governor Carter, talking to the entire corps of Capitol reporters yesterday, stated that he was agreeably surprised on reading the interview Frank G. Carpenter had with him in Washington to find that he (Mr. Carter) was able to convey such a mass of information about the Hawaiian Islands on the spur of the moment. It was no less a surprise though scarcely so pleasurable to find himself credited by Mr. Carpenter with certain views which he had never held. As an instance in the latter respect, at no time had he advocated that the United States Government should take control of the Leper Settlement. Among the minor statements in the Carpenter interview Governor Carter was credited with delivering an address to the Legislature. It was not necessary for him to deny this item of news in Honolulu.

The Governor stated that Mr. Carpenter had conversed with him in a sociable way for a few minutes. Referring to the land settlement question, Governor Carter said he considered that neither Mr. Carpenter nor the Advertiser was altogether right in the views they had respectively expressed.

DISAPPEARANCE OF PUNCHBOWL HOUSES

At the request of Superintendent Holloway on Friday afternoon, Officer McDuffie was sent to Luso street on Punchbowl slopes for the purpose of preventing the removal of buildings on Government land subleased to M. G. St. Anna. The policeman was too late, as, when he arrived, the place where two cottages had stood knew the fabrics no more forever. A condition of the original lease, made to Catherine K. Brown, was that on its expiration all buildings upon the land should become the property of the Government. Notwithstanding this a sublease was obtained by St. Anna which contained permission for removal of buildings at the expiration of the term. Subleases of like tenor, all soon to fall in, are held by A. V. Peters, J. F. Rosa, M. G. Cordeiro and J. Aveiro. It is likely the difficulty will be referred to the Attorney General.

WM. PFOTENHAUER RECEIVER FOR PUNA

Judge De Bolt yesterday appointed William Pfotenbauer as receiver for the Puna Sugar So., Ltd., under a bond of \$25,000. Smith & Lewis appeared for plaintiffs; Holmes & Stanley for Bishop & Co., L. A. Thurston for Olua Sugar Co., and Atkinson, Judd & Mott-Smith for B. F. Dillingham & Co., Ltd., and Puna Sugar So., Ltd.

Olua Sugar Co., Ltd., by its president, L. A. Thurston, in its answer had consented to the petition for a receiver, "saving and reserving to itself all rights of exception and objection to the personnel of said proposed receiver and to his acts and doings when appointed."

B. F. Dillingham & Co., Ltd., by its attorneys, Atkinson, Judd & Mott-Smith, had consented both to the appointment of a receiver and to that of William Pfotenbauer as the person. Puna Sugar Co., Ltd., by the same attorneys had made an identical answer. Bishop & Co. had by their attorneys, Holmes & Stanley, consented as trustees for the bondholders to the appointment of "some suitable and competent person" as receiver.
